Sport can and does play a major role in promoting inclusion of all age groups in society. However, inequalities have traditionally existed within sport, particularly in relation to gender, race and disability. Sport England and the ECB are committed to promoting and developing sports equality, which is about fairness in sport, equality of access, recognising inequalities and taking steps to address them.

By monitoring the profile of young people in sports clubs, NGBs/CSPs and Sport England can identify any issues relating to under-representation of different groups and can together develop strategies to ensure all young people have an opportunity in the future development and progress in sport.
